

ABLE

ESTABLISHED TRACK RECORD

An extensive range of satellite communication systems that are sure to meet your specific needs.

**FLYAWAY SYSTEMS**

1m, 1.2m, 1.9m & 2.4m Mantis and 1m, 1.4m Tripod flyaway antennas available in C, X, Ku, DBS, Ka, single, dual, tri and quad band configuration, with manual or motorised versions.

ABLE

DESIGNED FOR RAPID DEPLOYMENT

**VEHICLE MOUNTED SOLUTIONS**

90cm, 1.2m, 1.5m and 1.8m Newswift Motorised compact integrated antenna system available in C, Ku, DBS & X band configurations. Eutelsat & Intelsat type approved.

ABLE

OPERATIONAL IN EXTREMES

**FIXED EARTH STATIONS / VSAT**

Professional system design, installation and project management services for turnkey fixed earth stations.

ABLE

DESIGNED FOR EASE OF USE

**SUBSYSTEMS**

A complete range of electronic subsystems, ruggedised out door and 19" rack mounted, uniquely designed and built by Advent Communications to ensure unrivalled customer support.

# ADVENT COMMUNICATIONS

A complete range of light-weight, compact and ruggedised satellite communications systems that perform...

...in hazardous environments

READY - WILLING AND...

RELIABILITY

PORTABILITY

DURABILITY

USEABILITY

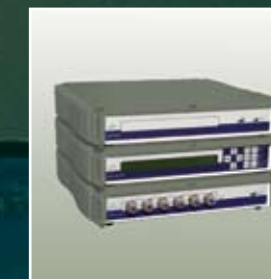

Advent Communications, who were established in 1986, pioneered the design and manufacture of light weight, rugged COTS (commercial off the shelf) flyaways and vehicle mounted systems.

Our equipment has passed the test of time in operation with signal corps, special forces, intelligence agencies, police forces and disaster recovery specialists around the world.

And, with often remote and hostile operating environments our products are...

BATTLE  
TESTED

BUILT  
TO LAST

### Complete Product Range

- Mantis flyaways
- Vehicle mounted antennas
- Integrated systems
- Bespoke solutions

### Beneficial Features

- Light weight carbon fibre construction
- Available in IATA weight-approved packages
- Compact yet ruggedised antenna solutions
- Field Tested

### Enabling Efficient Communication

- Tactical and strategic command
- Reconnaissance and surveillance
- Data transfer
- Welfare
- Establishing infrastructure
